Replacing Ink Cartridges

Ink Cartridge Handling Precautions

- ☐ Never move the print head by hand.
- ☐ Some ink is consumed from all cartridges during the following operations: print head cleaning and ink charging when an ink cartridge is installed.
- ☐ For maximum ink efficiency, only remove an ink cartridge when you are ready to replace it. Ink cartridges with low ink status may not be used when reinserted.
- ☐ Epson recommends the use of genuine Epson ink cartridges. Epson cannot guarantee the quality or reliability of non-genuine ink. The use of non-genuine ink may cause damage that is not covered by Epson's warranties, and under certain circumstances, may cause erratic printer behavior. Information about non-genuine ink levels may not be displayed, and use of non-genuine ink is recorded for possible use in service support.
- ☐ Make sure you have a new ink cartridge before you begin replacement. Once you start replacing a cartridge, you must complete all the steps in one session.
- ☐ Leave the expended cartridge installed until you have obtained a replacement. Otherwise the ink remaining in the print head nozzles may dry out.
- ☐ Do not open the ink cartridge package until you are ready to install it in the printer. The cartridge is vacuum packed to maintain its reliability.
- ☐ Other products not manufactured by Epson may cause damage that is not covered by Epson's warranties, and under certain circumstances, may cause erratic printer behavior.
- ☐ Do not turn off the printer during ink charging as this will waste ink.
- ☐ When an ink cartridge is expended, you cannot continue printing even if the other cartridges still contain ink.

1

Check the color to replace.

2

Open.

Never open the cartridge cover while the print head is moving.

3

8

Close.

If you find it difficult to close the cover, press down on each cartridge until it clicks into place.

9

10

If you had to replace an ink cartridge during copying, to ensure copy quality after ink charging is finished, cancel the job that is copying and start again from placing the originals.

2 Make sure the printable side (the whiter or glossier side) of the paper is facing in the right direction. ☐ ➔ 11

5 Align the print head. ☐ ➔ 38 If quality is not improved, try aligning using the printer driver utility. See your online User's Guide to align the print head.	
6 To clean the inside of the printer, make a copy without placing a document on the document table. For further information, see your online User's Guide .	
7 Use up ink cartridge within six months of opening vacuum package. ☐ ➔ 45	
8 Try to use genuine Epson ink cartridges and paper recommended by Epson.	
9 If a moiré (cross-hatch) pattern appears on your copy, change the Reduce/Enlarge setting or shift the position of your original.	
10 Make sure you selected the correct Paper Size , Layout , Expansion , and Reduce/Enlarge or Zoom setting for the loaded paper. ☐ ➔ 23, 32	
11 Make sure you loaded paper and placed the original correctly. ☐ ➔ 11, 13	
12 If the edges of the copy or photo are cropped off, move the original slightly away from the corner.	
13 Clean the document table. See your online User's Guide .
